

Best Poster Presentation Awards at TSB 2017

Session: Food & Agricultural Biotechnology

1. Suchanad Laokasemsukvong (Effect of temperature on levels of bitterness sesquiterpene lactones and nitrate in hydroponic Green Oak lettuce)
2. Nuntuchpon Khayanna (β -glucan production by black yeast *Aureobasidium thailandense* NRRL 58543 and its prebiotic property)

Session: Environmental Biotechnology

1. Tanyawat Keawsalud (Screening and isolation of thermostable alkaline keratinase producing bacteria from hot spring)

Session: Medical & Pharmaceutical Biotechnology

1. Jurairat Chittrakanwong (The role of SmLEP efflux pump on resistance against antibiotics and disinfectants of *Stenotrophomonas maltophilia*)

Session: Molecular Biology & Bioinformatics session

1. Zittipong Nhnkhorn (Functional characterization of IKK in *Penaeus monodon* antiviral signaling pathway)
2. Chitrasak Kullapanich (ActSR is involved in the regulation of stress adaptation in *Agrobacterium tumefaciens*)

Session: Nanobiotechnology & other related areas

1. Ninnapat Tiensri (Activity of solvent-rinsed *Carica papaya* lipase)

Session: Bio-energy & Biomass

1. Thanapa Atikij (Salt stress induced lipid accumulation in green microalga *Chlamydomonas reinhardtii* (137c))
